

Business Intelligence Platform

iBIP is a Business Intelligence Platform for the travel industry, very easy to install and ready to use from the first day. It is a simple and affordable solution for very common and specific travel company needs of any size. Connected to most information sources of the industry, iBIP can analyse and combine information from CRS, BSP, BackOffice systems and most information sources with a minimal setup.

With **iBIP**, MID OFFICE SOLUTION, you will control your most valuable asset: **your company information**. Now it is possible to analyse in a simple and effective way all the data you already have, and to understand how to maximize your profit, control your processes and plan your future strategies.

High quality graphics, dashboards, reports, web enabled interface for your mobile devices, data export to Excel and much more.

CONTROL

- Segments, tickets, hotel and car reservations, BSP invoices and many other data sources.
- Agreements with providers, including airlines.
- Sales, commissions, savings and profit.
- Achievement of sales force planned goals..
- BSP reconciliation

ENHANCE your current systems and provide more information to your business.

COMPARE

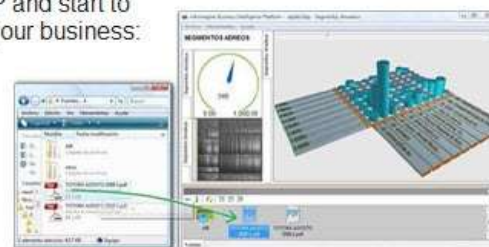

- BSP invoices with Amadeus or backoffice information.
- Information from different branches or travel agencies.

PROVIDE

- Corporate clients information.
- More details for your business management and accounting department.
- Web enabled access to mobile devices.

BUILD the solutions you need for your company.

Ready to use with your current information, just connect your data to iBIP and start to maximize your business:
